PROFILE SUMMARY

Computer Science & Business Systems graduate with experience building full-stack applications, data pipelines, and analytics dashboards. Comfortable working across the development lifecycle — from backend logic and database design to data processing and business reporting. Fast learner who adapts to team workflows and delivers working solutions.

TECHNICAL SKILLS

- **Analytics & BI:** Power BI (DAX, Data Modelling, Power Query), KPI Dashboards, Data Cleaning, Data Gathering, Tableau, Excel Advanced
- **Languages:** Python, SQL, JavaScript, HTML, CSS
- **Frameworks & Databases:** FastAPI, SQLAlchemy, PostgreSQL, SQLite, MongoDB, MYSQL
- **Concepts:** REST APIs, ETL Pipelines, Unit Testing, API Testing
- **Tools:** Postman, IBM Watson Studio, Git, GitHub

PROJECTS

The People's Ledger — TN 2026 Election Analytics (*In Progress*) [\[Project Link\]](#)

- Analysed real ECI data across 234 constituencies; uncovered a vote-split anomaly where the winning party secured the most seats despite receiving fewer statewide votes than the combined opposition, presented through a newspaper-themed interactive dashboard.

AI-Powered Digital Twin for Employee Productivity Optimization [\[Project Link\]](#)

- Engineered a real-time Digital Twin that monitors employee performance using activity logs and API data, with a multi-factor model computing productivity and stress indices to predict burnout risk.

RailGo — Railway Reservation & Live Tracking [\[Project Link\]](#)

- Developed a full-stack railway booking platform with live train tracking, secure FastAPI-based REST APIs, rate-limiting, and optimised query performance for concurrent operations.

OTT Platform Analytics Dashboard [\[Project Link\]](#)

- Built an analytics dashboard tracking subscriber growth, revenue trends, and content consumption; designed KPI cards with dynamic filtering by platform, region, and subscription tier.

INTERNSHIP EXPERIENCE

Business Intelligence Intern — Dovyo Technologies Pvt Ltd, Trichy | Aug 2024

- Gained hands-on exposure to CRM workflows (lead capture, sales tracking, support ticketing) and observed data-driven decision-making in a live business environment.

CERTIFICATIONS

- NPTEL — Database Management Systems, IIT (2025) [\[View Here\]](#)
- NPTEL — Cloud Computing, IIT (2025) [\[View Here\]](#)
- Data Fundamentals — IBM Skills Build (2026) [\[View Here\]](#)
- Postman API Fundamentals Student Expert (2024) [\[View Here\]](#)
- Data Analysis Training — Infosys CSR (2024) [\[View Here\]](#)

ACHIEVEMENTS

- Won 1st place in Meme Creation ("AI Takeover Human Jobs") at Festronix Symposium
- Research paper presented at ICCII 2026, Velammal Institute of Technology.
- Participated in Horizon 8 — Predictive Load Management for Power Grid, Jun 2025

EDUCATION

BTech — Computer Science & Business Systems | CGPA: 7.98

Saranathan College of Engineering, Trichy (Anna University)

Class XII: 86% | Class X: 94%

2022 – 2026
